POTENTIAL PATIENT REFERRAL SOURCES (Ages birth to 99+):

Pediatric/Pre-School population (birth-3:11 months):

- tongue tie
- dysphagia management
- emerging speech and language skills
- pre-literacy and social/pragmatic skills
- parent education/training

Child/Adolescent/School population (Age 4-19:11 months):

- Developmental delay/Intellectual disabilities
- Developmental Dyspraxia
- Cerebral Palsy
- Cochlear Implants
- Hard of Hearing
- Dyslexia
- Central Auditory Processing Disorder
- Selective Mutism
- Person who stutters/Dysfluency
- Cleft Lip & Palate
- Tongue Tie
- Autism Spectrum Disorder
- Down syndrome
- Dyslexia
- Williams syndrome
- Fetal Alcohol Spectrum Disorder
- Alcohol-related neurodevelopmental disorder
- Fragile X syndrome
- Angelman syndrome
- Velocardiofacial syndrome
- Other genetic syndromes/diagnoses
- Mild Traumatic Brain Injury and Concussion
- Acquired Brain Injury/Traumatic Brain Injury
- Motor Vehicle Accident
- Brain tumors
- Stroke

Adult population/Geriatric population (20-99+):

- All above stated developmental/congenital disorders/diseases
- Mild Traumatic Brain Injury and Concussion
- Acquired Brain Injury/Traumatic Brain Injury
- Motor Vehicle Accident
- Brain tumors
- Stroke
- Aneurysm
- Parkinson's Disease
- Multiple Sclerosis
- Amyotrophic Lateral Sclerosis
- Creutzfeldt-Jakob disease
- HIV Related Cognitive Impairment
- Corticobasal Degeneration
- Huntington's Disease
- Alzheimer's Disease
- Dementia
